# Sound Experience Hub at Prolight + Sound Indoor Sound Arena & Content Lab

In an acoustically separated area in Hall 11, a presentation area for sound reinforcement solutions is being created. The **Sound Experience Hub** offers an **Indoor Sound Arena** where you can present your sound systems under real conditions. Another component is the **Content Lab**. In workshops and hands-on sessions you have the opportunity to bring your solutions to life.

The Sound Experience Hub is located close to the exhibition area in **Hall 11**. The indoor sound arena is **about 100 sqm** in size and offers acoustic solutions for reducing room reflections. On the 1st level an additional lecture area, the Content Lab, can be found. The Content Lab is also **about 100 sqm** and already includes basic technical equipment.

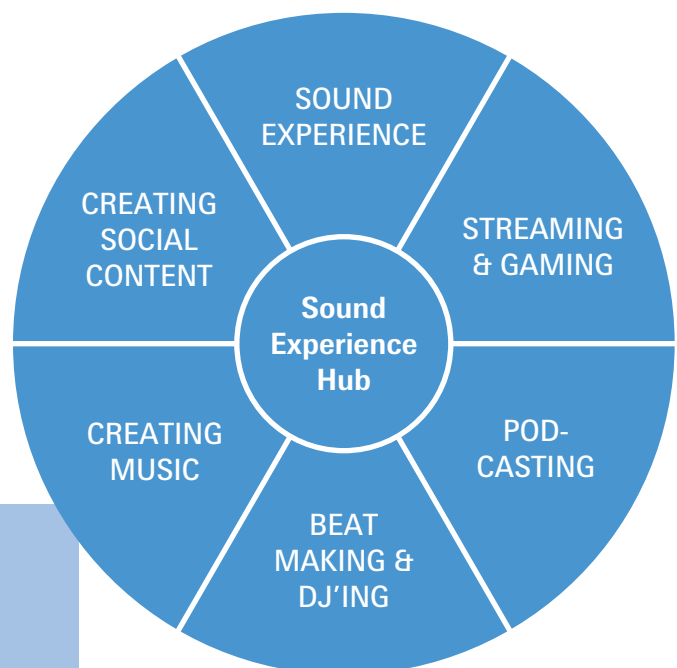

Right next to the Indoor Sound Arena is a **Catering Area** for optional use at own expenses.

## PRICES Sound Experience Hub

Slot ½ hour	450.00 €/**
Slot 1 hour	799.00 €/**
